## \$50,000 BUILDING FOR S. A. HOME IS DEDICATED

Dedication of the splendid assembly hall erected by Mrs. C. M. Cooke and family for the Salvation Army home in Moana Tuesday was informal but impressive and was followed by a Christmas celebration. Besides a fair turnout of Moana folks many friends of the institution from other sections were present.

An overture by the girls' band started the proceedings. Col. Robert Dubbin, local head of the army, called on Mrs. (Adjutant) West to offer the invocation. He then delivered the dedicatory address. He said he believed \$50,000 would hardly cover the cost of the assembly hall and placed the aggregate value of new structures at the home and the headquarters building downtown at not less than \$100,000.

He said the hall was intended to be the chapel for boys and girls, where exercises for their spiritual nurture would be held, and a place of recreation such as the festival of that evening as well.

After the dedicatory prayer by Rev. L. L. Looftbourrow the Christmas exercises began with more band music. Then came a delightful Christmas carol, including choruses from 115 children ranging from infancy to youth. There were stage settings arranged while the audience waited, showing the babe in the manger, the watching shepherds and the choir of angels—the latter equipped with artistic wings, but their song contributed in harp-like music from behind the scenes.

Santa Claus gave the closing performance, the actor being both an acrobat and a comedian. His antics caused uproarious merriment on the part of old and young.

The program follows:

Song, "Let Us Sing a Merry Carol," by the children.

Vocal quartet, Pollyanna, Minnie, Lizzie and Rosalie.

"The Shepherds," by larger girls.

Selection by the band, "Herald's Closed Door."

Christmas Bells, Sixteen girls.

Recitation, Violet Westcastle.

Instrumental quartet, the band girls.

Red Cross nurses, by six small children.

Selection, "Christmas," by the band.

Eleven enlisted men from Companies B and C, 3rd Engineers, who are applicants for admission to the next training camp, appeared before the board yesterday at army headquarters. Seven guardsmen from the outside island battalions were also examined, as follows: Albert Hall, Emil Manuel, K. Koenig, Kam, Dewey Mookini, Joseph R. Rodriguez, B. Cobalain and Henry Aki. Names of the army men are not yet available for publication.

Through the national council of defense a contract was awarded for the supply of 15,000 pairs of boots to the Belgian army.

## Social Annoyance

From a hygienic standpoint social annoyance is getting serious, since the strain on both the body and the mind requires constant physical attention. Certainly nothing is more annoying to a refined person than offensive perspiration or body odor. Those who have used Tyro's Antiseptic Powder know it to be the remedy which never disappoints. For general use—dependable in all cases—it should be in every household.

Dr. M. E. Charlier, of the Faculté de Paris, France, said: "It is a very unpleasant affection and hard to cure at that, it is surely these conditions." He also says: "There are to be found in the drug stores many preparations containing boracic acid and talcum. These preparations, generally used in a dried state, have the great inconvenience of clogging the pores of the skin. This is not the case with Tyro's Antiseptic Powder, as it acts as a deodorizing, stimulating agent. My attention was called to this fact while attending several cases of severe inflammation produced by Poison Oak. While no other remedy would give relief, Tyro's Antiseptic in the proportion of two teaspoons to a pint of water allayed the intense pain in a comparatively short space of time."

This preparation is sold in boxes at twenty-five cents and one dollar, by the manufacturer, J. S. Tyro, Chemist, Inc., Washington, D. C.

## France Praises Americans Who Died at Cambrai

WASHINGTON, D. C., Dec. 3.

—High tribute to the gallant conduct of the American army engineers in France who were caught in the German encircling attack on the British lines near Cambrai is paid in an official communication from the French government received here tonight by cable. The communication follows:

"We must remark upon the conduct of certain American soldiers, pioneers and workmen of the military railroad in the sector of the German attack west of Cambrai on Nov. 30. They exchanged their picks and shovels for rifles and cartridges and fought with the English. Many died thus bravely, arms in hand, before the invader. All helped to repulse the enemy. There is not a single person who saw them at work who does not render warm praise to the coolness, discipline and courage of these improvised combatants."

## MANY CITY DEPARTMENTS ASK FOR MORE MONEY

More money is wanted for the expenses of the First Circuit Court, the police department, the department, Kapiolani Park maintenance and a number of other departments in the budget appropriations for the first six months of 1918 which will be considered at a special meeting of the board of supervisors Sunday morning at 10 o'clock.

The First Circuit court is set down in the tentative budget for \$10,000 for six months, or an increase of approximately \$200 a month. The maintenance of the police department calls for \$111,530 for the six months instead of \$78,000 as in the old budget. There is a slight increase in the appropriation for the upkeep of parks and Kapiolani Park, which is set down separately, will receive \$22,000 a month. Other proposed increases are \$432 a month for the support of prisoners; salaries of the fire department, \$415 a month; jail payrolls, \$400 a month; salary of deputy clerks in the auditor's department, \$261 a month; salaries of deputies and clerks in the attorney's office, \$115; salaries of deputies and clerks in the treasurer's department, \$150 a month. The remainder of the appropriations are the same as for the last three months of this year.

## RICH MAN'S SON SENDS ENLISTMENT BY WIRELESS

SAN FRANCISCO, Dec. 5.—Reserving a berth in the United States marine corps by wireless is the latest wrinkle sprung on recruiting sergeants on duty at the Market street office.

Kenneth A. Williams, son of Henry Williams, director of W. R. Grace & Co. and a well-known San Francisco steamship man, is the originator of the idea.

Young Williams is returning from a trip to the Orient. When he reached Honolulu he apparently started to read in San Francisco papers of how quickly the marine corps quota was being filled.

"I'll be there in a few days," Williams, senior, visited the marine recruiting office today to make sure there would be no slip-up.

## AD CLUB'S WORK ON TENEMENTS BEARING FRUIT

Action to curb some of the worst evils of tenement houses here is being considered by the board of supervisors, reported H. E. Vernon on behalf of the Ad Club's tenement committee, at the club lunch yesterday.

He said that Tuesday night the supervisors referred to the health committee and to the city attorney's office the Ad Club communication on overcrowding and attendant evils, and indicated that the board is disposed to act when it has investigated and has worked out the legal phases of remedial legislation.

Riley H. Allen spoke briefly on a trip through some of the worst tenement districts taken this week with W. E. Pietsch, social worker, and of the acute conditions of overcrowding they encountered.

"It is estimated that within the past few weeks from 500 to 700 men from the plantations have quit their jobs and come to Honolulu and most of them are still here," he said. "It is also estimated that from 200 to 300 families have come and taken up quarters in the already crowded tenements. Many have intended to go to the coast, but cannot get passage. Their situation is a menace to the health and morals of the young girls and boys of the families, plunged as they are into the worst of the most evil conditions."

He said that the Ad Club suggestions for a janitor and watchman for each building; of enforcement of strict sanitary regulations and segregation of the sexes should be carried out, in the opinion of those who have seen present day conditions.
